Name:

## GCSE (1-9)

## Area and Circumference of Circles

## Instructions

- Use black ink or ball-point pen.
- Answer all Questions.
- Answer the Questions in the spaces provided
- there may be more space than you need.
- Diagrams are NOT accurately drawn, unless otherwise indicated.
- You must show all your working out.

## Information

- The marks for each Question are shown in brackets
- use this as a guide as to how much time to spend on each Question.

## Advice

- Read each Question carefully before you start to answer it.
- Keep an eye on the time.
- Try to answer every Question.
- Check your answers if you have time at the end

1 (a) On the diagram below, draw a radius of the circle.

(b) On the diagram below, draw a sector of the circle.

Shade the sector.

2 (a) Write down the mathematical name for the straight line touching the circle.

(b) Write down the mathematical name for the straight line shown in the diagram.

3 A circle has a radius of 6.5 cm .
Work out the circumference of the circle.
Give your answer correct to 2 decimal places.

4 A circle has a diameter of 9 m .
Work out the area of the circle.
Give your answer correct to 1 decimal place.

5 A circle has a diameter of 12 mm .
Work out the circumference of the circle.
Give your answer in terms of $\pi$

6 A circle has a radius of 8 cm .
Work out the area of the circle.
Give your answer in terms of $\pi$

7 A semi-circle has an area of $50 \mathrm{~m}^{2}$.
Find the perimeter of the semi-circle.
Give your answer correct to one decimal place.

8 A circular field has a diameter of 32 metres.
A farmer wants to build a fence around the edge of the field.
Each metre of fence will cost $£ 15.95$
Work out the total cost of the fence.

An area is formed by a square, $A B C D$, and a semi circle.
$B D$ is the diameter of the semi circle.
The radius of the semi circle is 4 m .
The area is going to be covered completely with lawn seed.
A box of lawn seed covers $25 \mathrm{~m}^{2}$.
How many boxes of lawn seed will be needed?
You must show your working.

10 The diagram shows a shaded ring formed by cutting a smaller circle out of a larger circle.

The radius of the smaller circle is 6 cm .
The diameter of the larger circle is 15 cm .
Find the area of the shaded ring.

$\qquad$ $\mathrm{cm}^{2}$

11 The diagram shows three quarters of a circle with a radius of 12 metres.

Find the perimeter of the shape.

$\qquad$

12 The diagram shows a semi circle inside a sector of a circle, $A B C$. $A B$ is the diameter of the semi circle.
Angle $B A C=90^{\circ}$
$A B=12 \mathrm{~cm}$
Find the area of the shaded region.

. $\mathrm{cm}^{2}$

13 A circle is enclosed by a square as shown in the diagram.
Each side of the square measures 8 cm .
Find the area of the shaded region.
Give your answer correct to 1 decimal place.

$\qquad$ $\mathrm{cm}^{2}$

B

Shape $\mathbf{A}$ is a semi-circle which has a radius of 12 cm .
Shape $\mathbf{B}$ is a circle.
The area of shape $\mathbf{A}$ is 8 times the area of shape $\mathbf{B}$.
Show that the radius of shape $\mathbf{B}$ is 3 cm .
