Name:

# GCSE (1-9) <br> Volume of Prisms 

## Instructions

- Use black ink or ball-point pen.
- Answer all Questions.
- Answer the Questions in the spaces provided
- there may be more space than you need.
- Diagrams are NOT accurately drawn, unless otherwise indicated.
- You must show all your working out.

## Information

- The marks for each Question are shown in brackets
- use this as a guide as to how much time to spend on each Question.

## Advice

- Read each Question carefully before you start to answer it.
- Keep an eye on the time.
- Try to answer every Question.
- Check your answers if you have time at the end

1

The diagram shows a prism.
Work out the volume of the prism.
$\qquad$ $\mathrm{cm}^{3}$

2

The diagram shows a triangular prism.
The cross-section of the prism is a right angled triangle.
Calculate the volume of the prism.
$\mathrm{m}^{3}$

The diagram shows a prism.
The cross-section of the prism is a trapezium.
Work out the volume of the prism.
$\qquad$ $\mathrm{cm}^{3}$

The diagram shows a triangular prism.
The cross-section of the prism is a right angled triangle.
The volume of the prism is $198 \mathrm{~cm}^{3}$
Calculate the value of $x$

The diagram shows a cuboid $A B C D E F G H$
$A B C D$ is a square with area $25 \mathrm{~cm}^{2}$.
$\mathrm{CG}=12 \mathrm{~cm}$.
Find the volume of the cuboid.
$\qquad$ . $\mathrm{cm}^{3}$

6 Bob has a van.
He is using the van to deliver boxes.
Each box is a cuboid, 60 cm by 30 cm by 40 cm .

The van has the space for the boxes in the shape of a cuboid with:
length 3 m width 1.8 m height 2 m

Work out how many boxes can Bob fit into the van.

7 The diagram shows a cuboid.

The volume of the cuboid is $120 \mathrm{~cm}^{3}$
Calculate the value of $x$

8 The diagram shows an empty water container.
Fiona is going to use a bucket to fill the container.
Each bucket can hold 12 litres of water.
How many buckets of water will be needed to fill the container?

$9 \quad$ Here is a cube.

Work out the volume of five of these cubes.
$\qquad$ $\mathrm{cm}^{3}$

10 The diagram shows an empty water container.
The container is going to be filled using a hose pipe.
The water will flow into the container at a rate of 2 litres per second.

How long will it take for the container to be filled
 completely?

120 cm

11 The total surface area of a cube is $150 \mathrm{~cm}^{2}$.
Work out the volume of the cube.
$\qquad$ $\mathrm{cm}^{3}$

12 The diagram shows a water container.
The container is $\frac{2}{3}$ full with water.
The water is going to be used to fill cups.
Each cup golds 175 ml of water.
How many cups of water can be completely filled with water from the container

13 Here is a triangular prism.

The diagram shows a triangular prism.
The cross-section of the prism is a right angled triangle.
Calculate the volume of the prism.
